

modular expansion joint cover

folocopri™ CPM

Modular expansion joint covers, custom-made according to the required widths. Particularly suitable as expansion joint covers for walls or ceilings, supplied both in the flat and in the corner version. This profile consists of two lateral elements which work both as fixing system, with screws and dowels, and as restraining and movement devices for the aluminium profile, which is custom-made according to the required width. Supplied in Silver anodised aluminium. Illustrated scale dimension 1:2

INSTALLATION:

- Place the custom-made profile plate within the fixing modules leaving the necessary space for dilatation.
- Fix the lateral profiles at the required width, as per reported drawing, with screws and dowels or using a suitable adhesive.
- It is advisable to put a small quantity of silicone in the fixing modules before inserting the plate.
