

terminal edge profile for wooden and laminate floors

folowood™ LT

This terminal edge perimeter profile trim is especially designed for floating wooden floors to ideally finish to wall edge and adjacent floors. It also serves as an expansion joint and is an alternative to skirting. Also ideal for edging sliding doors tracks and entrance mat edging. It can be fixed with dowels or screws and guarantees a perfect hold. To be fixed with screws and dowels.

Illustrated scale dimension 1:1

FOLOWOOD LT-A*N Anodised Aluminium

The profile is anodised aluminium with Silver, Gold or Bronze colour finish. The aluminium has an approx. 20 micron coating. The profile is easily adaptable to several coverings for colour and texture and is well tolerant to oxidation but less resistant to mechanical impact. In areas with higher transit the use of the solid brass article is recommended.

Material: Extruded Anodised aluminium
Length: 2,70 meters
Colours*: Silver, Gold, Bronze

H=mm	Art.
7	LT 70 A*N
9	LT 90 A*N
10,2	LT 100 A*N
13	LT 130 A*N
15	LT 150 A*N

FOLOWOOD LT 90*N Aluminium Wood Cladding Finish

Profile for the most common mismatching floors ranging between 7,5 and 9 mm. Melamine wood tone in 6 different varieties. Good tolerance to abrasion comparable to most melamine coverings. The melamine embossing on the aluminium is particularly smooth therefore it remains quite clean and blends well with the flooring tone.

Material: Aluminium laminate covered
Length: 2,70 meters
Colours: 6 wooden colours
Height: 9 mm

Finish	Art.
Maple	LT 90 ACN
Beech	LT 90 FAN
Oak	LT 90 RON
Cherry	LT 90 CIN
Light walnut	LT 90 NCN
Dark walnut	LT 90 NSN

FOLOWOOD LT-OLN Polished Brass

Thanks to the natural properties of brass, this profile is highly tolerant to mechanical impact and areas subject to chemical presence yet still helps maintain an elegant finish to the coverings applied.

Material: Polished Brass laminated
Length: 2,70 meters
Profile covered with protective film

H=mm	Art.
10	LT 100 OLN
15	LT 150 OLN
22	LT 220 OLN

FOLOWOOD LT-ILN Polished Stainless steel

High tolerance steel profile particularly recommended for commercial and industrial environments. This article is also recommended for heavy transit areas offering a good mechanical resistance.

Material: Polished Stainless Steel
Length: 2,70 meters
Profile covered with protective film

H=mm	Art.
10	LT 100 ILN
15	LT 150 ILN
22	LT 220 ILN
