

This type of profile represents our innovative program for transition and finishing profiles for adjacent floor coverings with different levels. Due to its very special design, VARIOTEC DC features a multi-height adaptability which can range from 7 mm to 14 mm by simple inclination. This type of profile is to be glued on existing floors or as finish terminal floor edging to portray an extremely elegant touch. For gluing application we recommend to use our special adhesive.

variotec™ DC

VARIOTEC DC 22 OL Polished Brass

Full brass profile to guarantee the tolerance and endurance to chemical and mechanical solicitations. Through the contact of moisture or corrosive media, brass may oxidize on the exposed surfaces. This situation can be easily solved by buffing the product with a conventional polisher to return to its original shine.
