

SANITEC IC is bis production series conceived to create the hygienic joint cove between wall and floor or between two walls vertically, in particular in hospitals, chemical and food industry environments. The product is supplied ready to be fixed onto existing coverings so it is suitable for restructuring jobs and complies with the current sanitary and safety norms and regulations. The round moulded body of this profile ensures an excellent contour hold.

The H 60 model serves also as wall skirting.
Suggested application with our special adhesive.

sanitec™ IC

SANITEC IC 60 P 11 Synthetic Resin

Full body pure white resin UV stabilized wide cove base profile. It is utilized in diverse environments because it is resistant to most conventional diluted chemical agents and to minor scratches.
