

roundjolly® RJE

This is the closed section profile trim from the **ROUNDJOLLY®** family developed with co-extrusion technology joining two polymer synthetic resin elements. The closed section length enables the layer to line up the ceramic tile readily on the wall. New colours are available including a very realistic marble tone effect. This popular tile profile prevents the cracking of the sharp corner while perfectly rounding off the edge always with a symmetric laying job.

(RJE 80*)

ROUNDJOLLY® RJE Co-extruded

The exclusive manufacturing system used to produce the RJE series of profiles allows the simultaneous extrusion of two different resin polymers, granting a total and independent control over both the visible surface and the anchoring flange.

This ensures the maximum performances of endurance and mechanical resistance while still providing a high quality appearance.

Wall section where the application of the jointing RJC capsule for the profile trim finish is evident.

Other applications may be: top skirting finish (as seen in diagram) or edging of tile covering, natural stone or limestone as well as for moquette carpeting.

ROUNDJOLLY® RJE-P Full body coloured Synthetic Resin

The product is entirely of a solid colour compound and not colour coated. The profile is available in a wide range of colours and can be utilized in the most diverse environments which require coverings. This type of trim profile is easy to cut to size so the laying may result quicker and less time consuming therefore one would economize in terms of labour over the entire project budget.

This product maintains good performance over time against UV rays and small scratches are not so visible, tolerates impact and chemicals present in most detergents.

	Colour	H=6mm			H=8mm

ROUNDJOLLY® RJE-PT BRILCOLOUR LINE Synthetic Resin

Co-extruded profiles coated with hot laminate decorative film for the "shiny effect" in order to satisfy a more particular laying job. The more delicate tone finish makes this tile trim profile most suitable for domestic applications.

	Colour	H=6mm		H=8mm		H=10mm	
Material:	11= Pure white	RJE	60	PT 11	RJE	80	PT 11
Resintop	12= White	RJE	60	PT 12	RJE	80	PT 12
