Solid synthetic resin **WALLPROTECTION WP** profile is scratch resistant and self-extinguishing. Its smooth surface is hygienic and easy to clean. The wallguard is designed to be used in conjunction with **WALLPROTECTION** baseboards and corner guards. Available in a variety of colors which can be coordinated to create a "two-tone" design; the center strip in a darker color is more resistant to stains and impact.

5'' (125mm)

wallprotection WP

WALLPROTECTION WP 125 P* Wallguard in Solid Extruded Synthetic Resin
This profile can be extruded in a single color or co-extruded for a "two-tone" design. The profile is tolerant to mechanical impact and most diluted chemicals and detergents. Available in white and grey. Other colors available upon request, minimum quantity required. See page 107.
